

SmartKiz[®]

by Overkiz

The most versatile
smart home box

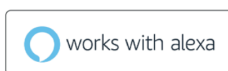

- ✓ Built-in 2.4 GHz
- ✓ Smart scenarios
- ✓ White-label
- ✓ Plug & Play
- ✓ Fast deployment

This easy-to-use box enables you to manage up to 30 connected devices at the same time. Remotely control a wide range of compatible products from a large catalog: heating, gates, lighting, security, energy meters, appliances, and more.

With its sleek, modern design and its compact size, it blends in perfectly with any decor. There's no need for an Ethernet cable! The SmartKiz[®] uses Wi-Fi to communicate with your customer's router.

With the SmartKiz[®], you can provide your customers with advanced services, while improving their comfort, security and energy savings.

(2020)
