OVERKIZ

Hexa CONNECT

- New-build, Hexaom-branded smart homes
- Smart home automation gateway in every home
- IoT cloud platform
- Connected mobile apps and services

The Project

To improve standard of living and deliver new homes with high added value, the Hexaom Group, a leader in the construction and renovation of homes and buildings in France for more than 100 years, has chosen Overkiz for the development of a totally connected solution.

A fruitful partnership for the development of the latest generation application, Hexaconnect is coupled with a multiprotocol home automation gateway and the power of the Overkiz IoT platform.

Expected results: 1,500 connected homes each year within 3 years, in Hexaom colors.

Customers enjoy a new living experience, thanks to the ultra-simple management of their smart devices from a smartphone. And installers enjoy peace of mind with a dedicated pro app for pairing devices in just a few clicks.

The Challenge

Hexaom, formerly known as Maisons France Confort, wanted support for its digital transformation alongside a strong IoT expert partner, recognized for:

- Responding effectively to the triple priority of reliability, simplicity, and security for its customers

- Offering a scalable, tailor-made solution that supports a variety of protocols and the specific requirements of the brand's regional markets located throughout the region

- Ensuring the interoperability of a multi-brand, multi-device, and multi-protocol solution

- Providing long-term support through the remote monitoring and maintenance of all installed equipment

HEXAOM
