

Kizconnect® app

The user app in your colors

With the white-label Kizconnect® app, your customers can manage all their home's devices—at any time and from anywhere. With just a few clicks, they can create home scenarios and monitor their energy consumption for better comfort and better home management.

A SIMPLE AND INTUITIVE INTERFACE

Hello!
The entire home at a glance

Simple
"I'm going to work"
The shutters close, the lights turn off, and the heating stops

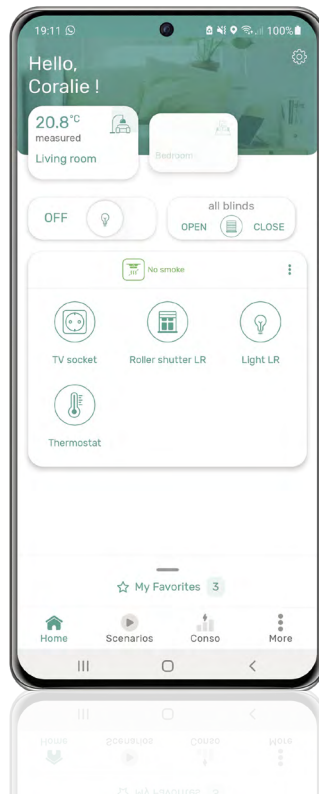

Advanced (with sensors)
"I'm opening the window"
Heating switches to Eco mode

Consumption
Real-time consumption data

- User account management
- Push notifications

Smart control of devices

- Individually or as a group, room by room
- Scenario programming: based on the day, time (precise time, at dawn, or at dusk), and location (up to 1 km around the home)

Customizable to your branding

Logo, images, colors, and icons

By finger and by voice

100% open and scalable

Thousands of compatible devices, including shutters, lamps, gates, alarms, thermostats, and more, which can be integrated over time

OVERKIZ'S COMMITMENTS

Expertise

developing hardware and software solutions for more than 15 years
